# SIX MONTHS EXPENSE BILL

(Continued from page 1.)

Senator Brown moved that the Senate recede on the amendment to the Associated Charities item, which the upper body had raised from \$625 to \$1,250. This carried leaving the item at the smallest sum.

Turning back to deferred items the first was the Pratt expense item, \$10,000. Baldwin moved that the Senate yield that item and the Fertilizer Company item and the Merchants item for health inspectors be granted by the Senate. He said this would about even up matters as the Pratt item was \$10,000, the Fertilizer Company item \$11,776.36 and the refunding for commercial bodies \$8,129.57.

Senator Brown said he favored refunding \$7,500 to the merchants for the Pratt expenses. He said that he thought the merchants had advanced the money without expectation of reimbursement, and that the item was put in for the purpose of showing that the government appreciated the work of the agent. He said he did not approve of giving Pratt \$2,500 more than he agreed to go for, and that \$7,500 would cover the actual expense leaving the merchants to give Pratt a present if they so wished.

Senator Baldwin said he agreed with all that had been said, but the House had indicated that this item was repugnant and he feared that the House would not pass a report with the item in it. He said further that there were other items which might be considered as too high, and he was in favor of cutting the appropriations for repairs to wharves from \$50,000 to \$30,000 and the item for dredging from \$50,000 to \$30,000. He said he was open to conviction but he did not think the money could be spent. He moved to reconsider and then he made the proposition that the items should be bunched under his original motion. Brown objected and wanted a vote on each item, and moved that the Pratt item be reduced to \$7,500.

Kaniho objected to the Pratt item, saying that the benefit was principally to Oahu; that Wilcox was the representative of the Territory and that the precedent was bad. The Brown motion was a tie as was that to strike out and the consideration passed for the time.

On the Hawaiian Fertilizer item the Senate's amended item, which showed that the collection was made in error was passed at \$1,776.36.

On the wharf shed at Hoopuloa, Mr. Harris reported that the work was now going on, the money being drawn from the general fund. The item was therefore stricken out.

The item providing for the development of water at Kamanaili spring was supported by Vida, who said it was at a level higher than the proposed reservoir and that in no other way could water be had by the 300 residents there. The item was passed at \$5,000. Aala Park got \$625 and the Kalihi Cemetery road \$2,900.

Baldwin moved to reconsider the item, road into Huleia valley, and it was inserted at \$4,000. The Niumalu valley road, likewise reconsidered, got \$5,000. Fernandez wanted to reconsider the South Hilo roads item and this being done, the committee passed the item as in the House, at \$7,500 for roads and bridges general.

Achi here went back to the Paradise of the Pacific subsidy, \$1,250, and Baldwin stated that this was the only item asked by President Crabbe, and he urged that it be passed. The committee agreed to the item. The subsidy for freight and passenger steamers to Molokai was passed and there was some discussion over the item for freight on parcel to the leper settlement to broaden it, it being approved.

On the item for the reimbursement of the merchants in the sum of \$8,129.57, Senator Brown said he was ready for a compromise, if this was inserted he being willing to cut out the Pratt item. He said he thought the next legislature would hear from the Fertilizer works reimbursement to the tune of \$30,000 to \$40,000, but that was passed so he was ready to make an agreement to compromise. Kaniho said the two items for refunding to merchants were similar and if he voted for one he would for the both, but after an argument he agreed to the compromise, though he believed the Board should be censured for agreeing to debts for which there was no authority. The Pratt item was therefore killed and the reimbursement for health inspectors passed.

The administrative features were quickly passed and after providing that a revision committee consisting of Senators Brown and Paris and Representatives Harris and Fernandez should prepare the report and verify the figures, the bill as amended was passed.

# KOREA WON RACE FROM EMPRESS

The San Francisco Chronicle tells the following story of a race which the Korea won from the Empress of Japan in the inland sea of Japan:

"A spirited race between the liner Korea and the Canadian Pacific's crack liner Empress of Japan took place in the inland sea of Japan on May 19th and 20th, in which the big Korea walked away from her rival in a manner that left no doubt of her superiority as the speediest thing afloat in the Pacific. Captain Seabury and the officers of the Korea do not say that there was a race. It is only to be surmised from the fact that when the Korea passed the throbbing Empress the former was reeling off 19.6 miles an hour, and the schedule time in the inland sea does not call for anything like that. The Empress of Japan, fresh from the dry dock in Hongkong, first met defeat at the hands of the Korea upon leaving Hongkong, for she was beaten by several hours on the run to Shanghai. But the great test of speed was between Nagasaki and Kobe. The Empress left Nagasaki at 5 o'clock on the afternoon of May 19th, the Korea following two hours later. The following day, early in the afternoon, the Empress of Japan was sighted several miles ahead, clouds of black smoke pouring from her funnels, and with every appearance of being crowded along. In spite of her efforts, however, the big Korea rapidly drew up on her, passed her at the rate of over 19-1/2 knots an hour, wheeled off Moji, and was ten miles ahead when Kobe was reached. The passengers on the Korea, numbering nearly 200, became enthusiastic when passing the Empress, and brought out scores of flags, but Captain Seabury stopped this exhibition of boastfulness. It was enough to beat the Empress of Japan so easily, without causing chagrin to the people on board the opposition liner.

# MARU HAS FEW PASSENGERS

The America Maru was sighted off Waimanalo at 1:25 o'clock yesterday afternoon but it was nearly four hours later before she docked at the Bishop wharf. The Maru has but few passengers this time, the most of them going through to Manila some of these are prospective brides and women who go to take positions as school teachers in the Philippines.

Col. and Mrs. S. Day and Mr. and Mrs. E. F. Robbins and children are the stop over passengers for Honolulu. Col. Day is a well known army man, and his wife is better known as Helen Gardner, the novelist.

Mr. Robbins is a millionaire Chicagoan, who recently sold out to the Armours.

There are no cabin passengers to join the Maru at this port, but about 150 Japanese, twenty Chinese and one Korean will take passage from Honolulu. The Maru sighted a four masted schooner about one hundred miles from Oahu at nine o'clock yesterday morning. Shortly after noon a full rigged ship was sighted. Both were headed this way.

The America Maru brought 119 bags of mail. She made the trip in six days and five hours. She is scheduled to leave for the Orient this afternoon at 4:30 o'clock.

## Nebraskan Arrives.

The Nebraskan arrived at daybreak yesterday morning, seven and a half days from San Francisco. She sighted both the Sierra and the Nevada on her downward trip. She also sighted the steamship Whittier with the barkentine Fullerton in tow.

The Nebraskan brought a general cargo for Honolulu, which included 165 hogs. She had 148 bags of mail.

The Nebraskan will sail for Kahului tonight. She has 600 tons of freight for that port.

The Nebraskan will sail for San Francisco Saturday, June 27th.

## The Nebraskan's Mail.

The following from the San Francisco Chronicle explains the cablegram received about a week ago regarding the mail on the Nebraskan:

"One hundred and fifty bags of mail for the Hawaiian islands will be forwarded to Honolulu on the freight steamer Nebraskan, scheduled to sail next Tuesday. It was originally intended to dispatch the mail by the liner American Maru, to depart next Thursday, but the postoffice authorities believe that the freighter, having two days the start of the America Maru, will reach Honolulu perhaps a

day sooner. The great increase in the amount of mail matter for Hawaii since annexation and the clamoring of Honolulu people for more prompt service than was formerly observed have made the postal officials very alert. There is said to be no further ground for complaint on the part of the Hawaiians.

## Solace Sails the 20th.

News was received at the Naval station yesterday to the effect that the Solace will sail from San Francisco for Honolulu on June 20th. She will probably not remain here over a day, as she intends only to bring coal. Among her passengers are Lieutenant C. S. Williams who was formerly stationed in Honolulu on the Iroquois, and who accompanied her on her former trip to Midway Island. Others passengers aboard the Solace will be Lieutenant C. N. Offley, H. H. Christy, L. F. James, D. M. Harrison, C. R. Miller and Midshipman J. Rodgers.

# AFRAID OF NEW WAREHOUSE

The government recently built a new warehouse at Hookena, Hawaii, for the accommodation of freight to be shipped from that port. This has been three weeks and no use has been made of it yet. The whole trouble lies in the fact that the natives haven't discovered what it is for. The door is shut, but there is no lock upon it, and the natives in that vicinity march around and around the little structure in solemn silence. It is apparently "tabu" for them and they keep shipping goods by the Inter-Island steamers constantly but not one of them would think of using the warehouse, and pile their baggage out in the sun as before the building was erected.

# SUED JAPANESE ON THE MARU

Two suits were filed yesterday against a Japanese who is said to be a passenger on the America Maru. The suits were instituted here upon cable instructions from San Francisco, where the man was said to have gotten the best of a couple of Japanese firms. The plaintiffs in the case were M. Shibade and Fuji & Co. and each claimed \$300 from Hayashida who was alleged to have borrowed the money and failed to repay it.

An order of attachment was issued against the passenger's property by the Circuit Court, but the officers hadn't taken possession of any of his effects last night.

## Albert Sails.

The barkentine Albert sailed yesterday morning for San Francisco. She carried a big cargo of sugar, and also six passengers.

## Shipping Notes.

The oil carrying steamer Argyll cleared for Honolulu from San Francisco on the 9th.

The ship Benjamin Packard twenty-one days from Honolulu, arrived June 4th at San Francisco.

Te Edward May arrived at the coast from Makawell on June 6th, 20 days out, with 23,000 bags of sugar.

The bark Mohican and the barkentine Coronado sailed from San Francisco for Honolulu on June 10.

The Nihau arrived yesterday afternoon from Punaluu with 7177 bags of sugar. She had fine weather throughout.

The Noeau left yesterday for Hawaii ports. She will make a special trip to Hilo before going to her regular ports.

The Chronicle says: The bark Andrew Welch, Captain Drew, arrived yesterday, nineteen days from Honolulu, with eleven passengers and 27,832 bags of sugar. The trip was uneventful, except for the last forty-eight hours before reaching port, when heavy fog prevailed.
